

Financial Accounting with International Financial Reporting Standards, 4th Edition

Jerry J. Weygandt, Paul D. Kimmel, Donald E. Kieso

Accounting | Financial Accounting | AC1300 International Accounting

The new edition retains each of the key features (e.g. TOC, writing style, pedagogy, robust EOC) on which users of Weygandt *Financial* have come to rely, while putting the focus on international companies and examples, discussing financial accounting principles and procedures within the context of IFRS, and providing EOC exercises and problems that present students with foreign currency examples in addition to U.S. dollars.

New to this Edition

- New modular organization based on learning objectives.
- Added emphasis, explanations, illustrations, and homework problems on the accounting cycle as that is one of the most important concepts for students to master.
- New Practice Brief Exercises in the Review and Practice section, each followed by detailed solutions.
- New design to promote accessibility across all media devices.
- Many chapters include new Brief Exercises and Exercises.

Features & the Wiley Advantage

Challenges	Features in WileyPlus
Students need a variety of interactive practice opportunities that vary in difficulty to retain key accounting concepts.	Assessment and practice questions varying in difficulty, Flashcards, Crossword Puzzles
The business world is changing, and it is important for students to develop key skills such as data analysis and Excel.	Data Analytics and Accounting Module, Data Set Library, Excel Function Videos
Instructors are constantly looking for ways to not only engage students, but to also show them why accounting information is important and how it applies to the world around them.	The infographic Weygandt approach, Matcha Creations (continuing case), Accounting Weekly Updates

An Easier Way to Teach and Learn

-  **WileyPLUS is cost-effective and efficient.** It gives your students a clear path through the course material and assignments so they can stay on track, engaged and earn good grades.
-  **WileyPLUS has resources for every type of learner.** Tutorials, videos, animations, and relevant links keep your students motivated during their study sessions. Many courses also include Adaptive practice, a personalized learning experience that identifies the areas that are most challenging for students and helps them study more efficiently.
-  **WileyPLUS is mobile friendly.** The Instructor App lets you grade assignments, change due dates, and communicate with your students all from your phone. Students can access their entire textbook as well as search, highlight, take notes, and complete most homework assignments right from the student app.
-  **The new WileyPLUS lets you teach your course, your way.** Built to be flexible, WileyPLUS gives Instructors the freedom to rename, reorder, remove and add their own content while also including pre-loaded curated resources, including: videos, pre-built assessments, low-stakes practice, test banks, power points and more.

Why Use the new WileyPLUS?

- Videos build students' problem-solving skills and break down complex problems.** Author-created Solution Walkthrough Videos break down complex problems and build students' problem-solving skills by walking them through the process of solving important homework problems. Students benefit from just-in-time homework assistance and remain engaged and on track in their course.
- Blank-sheet-of-paper experience mimics professional applications.** The blank-sheet-of-paper design with type-ahead fosters memory recall, while avoiding the potential pitfall of student typos. With a modern design, students work through accounting problem sets that mimic professional applications.
- Data Analytics and Accounting module fosters career-readiness.** In partnership with the Business-Higher Education Forum (BHEF), the new WileyPLUS introduces students to an accounting-specific data analytics module with interactive lessons, case studies, and videos to help students develop the professional competencies they need to be successful in their future careers.

Data Analytics and Accounting Module

WileyPLUS is an online teaching and learning platform that helps instructors and students achieve educational success.

With the emergence of Data Analytics transforming the accounting profession, Wiley has partnered with business leaders in the Business-Higher Education Forum (BHEF) to identify the competencies graduates need to be successful in their careers. As a result, WileyPLUS includes a new data analytics module with industry-validated content that prepares students for the CPA Exam and the changing workforce.

FEATURES AND RESOURCES

Case Study: Students look at the financial statements of major players in the airline industry and use Excel to practice functions (i.e. VLOOKUP, LOOKUP), create pivot tables and visualize data for decision making. Data sets will be provided.

Check Your Understanding Questions: Integrated into each section.

Interactive Lessons: Each section of content is presented through an interactive tutorial.

Videos: Video tutorials and real-world applications of big data analysis illustrate how the use of data has completely changed companies and helped us to better understand our world.

Articles: Provide real-world applications of data analytics usage.

Instructor's Manual: Outlines best practices for integrating materials into your accounting course and solutions to the case study.

CONTENT

Introduction to Students: Addresses the distinctions made from the proper use of data and the challenges big data produces.

Negative Consequences of Big Data: Students will explore several examples of how data analytic tools were ineffective as a result of faulty data, incorrect assumptions, and the inability of the model to learn from previous decisions.

Review Materials: Covers the necessary Excel skills needed to solve complex sets of business decisions and the common financial ratios needed to analyze and make predictions.

Fraud Detection: Focuses on how fraud is committed and how data analysis helps detect it.

Data Typologies and Governance: Students will understand how organizations leverage structured and unstructured data in their overall strategy and explore the costs and risks associated with the poor use of data.

Descriptive and Predictive Analytics: Reviews basic concepts of statistics and illustrates how and when to apply its various methods.

Storytelling and Data Visualization: Explores how data tells powerful stories that are used to relate directly to others and choose desired actions.
