

Explore AI's power to transform human creativity

Creative Machines: AI, Art & Us

Author: Maya Ackerman

In *Creative Machines: AI, Art & Us*, world-renowned AI researcher and generative AI pioneer, Maya Ackerman, takes you on a thrilling journey into the rise of creative AI, from its earliest pioneers to the cutting-edge tools shaping music, art, and human imagination today. Ackerman cuts through the hype, revealing the true capabilities and limitations of generative AI while championing its potential to amplify human creativity rather than replace it. Drawing on psychology, philosophy, and her own research, she reveals how generative AI exposes both the brilliance and the blind spots of human society—our ingenuity, our biases, our assumptions about intelligence and identity.

You'll discover:

- The hidden history and explosive growth of AI-generated creativity
- Explorations of the true capabilities and limitations of creative AI
- A visionary framework for using AI as a tool to enhance human creativity
- A bold new perspective on AI ethics and why fixing AI is not enough

An essential read for anyone doing their best to navigate the rapidly evolving landscape of generative AI.

About the Author

MAYA ACKERMAN, PHD, is an internationally renowned leader in generative AI, pioneering the next chapter of creativity. As CEO and Co-Founder of WaveAI, one of the earliest generative AI startups, she has enabled millions to explore new frontiers in creative expression through AI. An Associate Professor at Santa Clara University, Dr. Ackerman is widely known for her research on AI and creativity. Dr. Ackerman's insights have been featured in NBC News, NPR, Forbes, and more. Her work champions the role of AI in amplifying—rather than replacing—human creativity.
